STAT

Debbie (for enveloping)

Admiral Turner,

DDI provided copies of the following unclassified reports:

"The International Energy Situation: Outlook to 1985"

"Prospects for Soviet Oil Production."

"Prospects for Soviet Oil Production - A Supplemental Analysis."

"Soviet Economic Problems and Prospects."

"China Oil Production Prospects."

The DDI Production Staff advised that these five publications are the only unclassified reports the CIA has done on energy problems. Although there is another report in the works, no date of publication is known at this time.
